Anadolu Group family, like all families, has common values that are rooted in the working principles of their founders. These values are the building blocks of Anadolu Group which differentiate Anadolu Group from other groups. These values lie everywhere in the organization from the smallest to the largest business unit.

As Anadolu Group, we desire to give the best service and the best product not only to the people of the countries in which we operate but also to the people in the whole world, and we desire to deliver our dignity to the posterity.

While moving ahead, our major principles such as transparency, trust, loyalty, effective communication and environmental consciousness will guide us on our way.

As Anadolu Group,

✔ With the concept of trust,

- We understand to work with the guidelines of law and ethics and to avoid actions that will counter community interests.
- When choosing the people and corporations to collaborate, we pay utmost attention to work with whom we share the same values and beliefs and to build long term relationships based on mutual trust and respect.
- In light of the basic principles of our corporate culture, we aim for the continuous improvement of this large family which is constituted by suppliers, dealers, consumers and the other shareholders.
- In all of our business fields, our relations with the associates are built on mutual trust, honesty and continuous collaboration.

✔ With the concept of effective communication,

- We understand to provide an open and two-way communication environment within all levels of our organization.
- We know that knowledge is the most valuable asset that provides the basis for accurate decisions, therefore we share our knowledge.

✔ With the concept of transparency,

- By paying the utmost attention to our social relationships; we fulfill our duty in informing the public within the framework of “transparency” which guides us in our operations.
- We provide utmost “transparency” in all of our operations and our corporate structure.
✓ **With the concept of loyalty,**

- We attach great importance to intangible values as well as tangible values.
- We believe that acting with solidarity in any condition is one of the major elements of our corporate culture.
- We assure that the relationships within and outside our corporation are built upon the perspective of healthy human relationships.

✓ **With the concept of environmental consciousness,**

- We consider the protection of nature and environment as one of our vital and major duties.
- We deeply share environmental consciousness and support all efforts to create public awareness regarding nature and environment.

**Corporate Culture Values**

Corporate culture values which are constructed of the common values of Anadolu Group will guide us in all of our operations and decisions.

✓ **Leadership and Entrepreneurship :**

- Our goal is to carry our accomplishments and our dignity into the future by keeping up with the globalization process, to become the first entrepreneur and leader of all sectors in which we operate, and to orient the corporate knowledge and experience towards the new opportunities of future.
- Our aim is to make investments in sectors which we operate in, then to other sectors which are least effected from each other during crisis periods.
- While moving in this manner, we define entrepreneurship as transforming capital, labor, knowledge, natural and physical sources into goods and services.
- In parallel to these, we expect our employees to act proactively throughout their business life and take initiatives to solve problems by asking themselves the question; “What should I do?”. We believe that taking initiatives with self-confidence and courage will carry us into a successful future.
Investing on Development:

- We embrace the principal of looking for the better. However, we are aware that we have to struggle for this accomplishment. Therefore, we believe that we must give effort and invest on labor, resources and to all components in the organization.
- Anadolu Group was founded in the 1950's and after showing an enormous progress became one of the major industrial groups of our country in which its progress is a result of the working attitude of the Anatolian people and the investment to development of the corporation.

Team Work and Solidarity:

- We define team work as contribution of individual performance and success leading to team success.
- With the belief of the importance and necessity of work as a group, we expect and require all our staff, as being a member of the family, to perform all their knowledge, skills and capabilities for the success of the group.
- While appreciating the success of the individuals, we consider that team success should be in the forefront and that individuals should not be ahead or over the team success.
- We are aiming our staff to work with solidarity, to act together and besides each other.
- As a group we are assembling our relationship on the basis of respect, confidence, participation and collaboration.
- We believe that the most important factor which connects us together is the trust to one another.

To aim Quality and Excellence:

- We believe that “quality” is an indivisible whole in producing merchandise and services and that merchandise is produced initially at one time.
- We are aiming to provide utmost quality with the most favorable cost.
- The awareness of quality and excellence is not only in the production, it’s in the structure of forming the production, management, staff and totally in the roots of the corporation.
- We expect all our staff to concentrate on internal and external customers and aim in performing even the minor business with excellence.
- We believe that continuous progress and the search for excellence lies in the details. We also believe that using time, tools, information and capabilities in the right manner leads us to efficiency.

**Investing on Human**

- We understand the modern management concept as human focused sharing and that our employees are our most valuable possession and that we must support them and meet their necessities. We believe that this approach is the most valid method in promoting the corporation's performance.
- In order to prepare our employees and managers for the future, we support education at all levels and grades as we invest on “human beings”.

**Opportunity Equality,**

- We believe this as giving opportunity to all our staff for improvement, education and progression.
- We are making available for our staff who can perform excellent knowledge, the accessibility of undertaking an upper position.
- We are accessing opportunities for our staff and encouraging them to benefit from these opportunities.

**Work Reconciliation,**

- We believe that social and economic development can only be attained in an environment of reconciliation of a healthy working environment.
- We are using our efforts to attain work reconciliation, and paying attention to be a model as a Group in labor and employer relations.

**Social Responsibilities and Contemporaneity,**

- We are trying to give back the things we have received from the society in excess.
- We are aware of our social accountabilities together with our highly qualified staff who is aware of our corporate identity and aware of the sensitivity to the society.
- We are aware that contribution to the society as well as contribution to the economy is a necessity.
- We believe that as an organization and an individual our priority is not commercial assets, at the meantime the quality of an individual and life.
